

C.S.Kids Ltd

**Discover the Fun of
Learning Together**

Introduction

Hello C.S. Kids and Teachers,

When I was young, I loved being taught new things. I was curious and fascinated about the world. However, one year I suddenly lost interest in my studies. My parents wondered what happened, only to find out it wasn't the subject or my ability, but simply my motivation to learn.

My parents made sure I had an encouraging environment and brought the fun back into my school life with small items like little motivational notes in my lunch box or happy stick figures for a job well done. Ever since, I always looked to add a little 'fun' to my projects.

C.S. Kids is my way of taking all the encouragement my parents and teachers gave me and putting them into characters that are ready to enhance every student's studies and keep them motivated. From stickers to stationery, they'll be there to keep school fun and exciting... the way it should be.

Happy learning and teaching!

Cherry, Founder of C.S. Kids
